[Untitled] 2016120711412600.pdf

Following our meeting with the Ute Tribe vice-Chairman and two outside counsel last week, the Ute Tribe has passed a resolution stating their support of EPA U&O FIP contingent upon our promise to work with them and a multi-stakeholder working group to develop a streamlined permitting process for new facilities (which the U&O FIP does not cover).

Thank you Carl, attached please find a Business Committee resolution and letter addressing this matter.

A copy of the resolution and letter are being sent to Ms. McCabe and OMB today.

We appreciate EPA Region 8's willingness to consider the Tribe's interests and concerns with respect to this matter.

I will be in touch in coming weeks to follow up on next steps for the Tribally sponsored working group.

Jeremy

I just left you a phone message on your cell phone number about EPA sending a letter to the Chairman of the Business Committee. We have a letter drafted and we are awaiting Regional Administrator signature. As soon as we have signature I will send you a copy through email.

Also, Martin Hestmark, Assistant Regional Administrator, just called the vice Chairman and left him a message as well.

Your email to Monica Morales indicated that you may be able to still address this issue Wednesday with the Business Committee. So hopefully that will work if the letter shows up too late for today's meeting.
